RE: Planning Commission Recommendation
Adoption of GIS Land Use Map

As a result of a public hearing held on January 23 at 6:00pm in the Fiscal Court Room, the Madison County Planning Commission reviewed the new generated GIS Land Use Management Map as prepared by Bluegrass ADD. This map is a duplication of the present Land Use Map but was done on the GIS mapping contract the County is under with Bluegrass ADD. This map is more legible and more accurate due to its size, color coding and the technology used in its production.

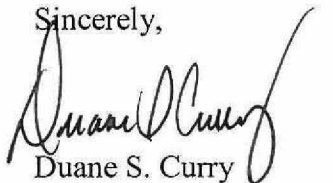

In accordance with KRS 100.213 it was requested that the current land use management map be replaced with the new GIS Land Use Map as presented.

Therefore, the Madison County Planning Commission recommends the GIS Land Use Management Map be adopted as the **official Land Use Map** for Madison County.

There was no opposition to the adoption of the Land Use Map at the public hearing.

Copies of the actual minutes from the public hearing are available upon request. Should you have any questions regarding this request, please call this office.

Sincerely,

Duane S. Curry
Administrative Official

DC
